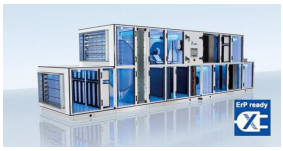
The art of handling air



X-CUBE

THE NEW TROX AIR HANDLING UNITS

With the TROX X-CUBE, an air handling unit with unlimited configuration options, TROX sets a new standard in the AHU market and defines considerably higher levels of quality, performance, flexibility, reliability, energy efficiency, and hygiene. Compelling all down the line. TROX now offers everything from a single source: air handling units and components – ideally complementary to each other.

- For even more energy efficiency and better quality with less coordination effort.
- For the ventilation of rooms and entire buildings, for filtering, heating, and cooling the air, for heat recovery as well as for humidification and dehumidification, and for volume flow rates of up to 86,000 m³/h
- Flexible frame construction, completely covered externally by thermally insulated panels or doors
- Easy installation, maintenance and cleaning
- Significantly reduced wiring workload due to flexible control and regulation based on fieldbus technology.
- Special hygiene construction variant according to AHU Guideline 01 (RLT-Richtlinie 01) for use in hospitals and laboratories; weatherproof construction variant for outdoor installation

ITERACTIVELY IN 3D.
