"Discover the entire world of air conditioning with TROX!" - that was the message of the TROX presentation during the ACREX 2019 Exhibition. Visitors from all over the India and beyond were experiencing the product range TROX.

- Eurovent Certified Air Handling Unit (AHU's) for Pharmaceutical projects and Clean rooms
- Lab Control system for Laboratory/Pharmaceutical application.
- Air Distribution Products & Filters for demanding requirements of Clean Rooms.
- Aesthetical and technically sound Air terminals & Air Distribution Products for residential & commercial projects.
- Chilled Beams for effective & efficient alternative to conventional systems.
- Under-floor systems catering the need for Data Centres in IT Industries.
- Constant Air volume dampers for constant volume systems - both in pharmaceutical & comfort application.
- Live demonstration of tunnel ventilation dampers to support the upcoming metros and tunnel projects across India and globe.

Being close to our customers and developing products to the regional requirements is of utmost importance for TROX.

The reactions from the many visitors were impressive who were seeing and experiencing products from various TROX factories

Visitors to the booth were able to learn how components and units that are perfectly complementary to each other can be combined with a precise control system to form an intelligent, interconnected overall system that ensures comfort, safety and energy efficiency.

The TROX Team would like to thank all visitors for their visit to the stand, all partners and customers for their support and trust, all contributors for their endless efforts, and all competitors for making us working harder every day.

Our TROX India Team
